INDEX TO VOLUME 6

ALBEE, A. L. Phase Equilibria in Three Assemblages of Kyanite-Zone Pelitic Schists, Lincoln Mountain Quadrangle, Central Vermont 246

ALDRICH, L. T., DAVIS, G. L., and JAMES, H. L. Ages of Minerals from Metamorphic and Igneous Rocks near Iron Mountain, Michigan 445

BARKER, D. S. Alkalic Rocks at Litchfield, Maine 1

BINGHAM, E., *see* ALBEE, A. L.

BELL, J. D., *see* MOORBATH, S.

CHALLIS, G. A. The Origin of New Zealand Ultramafic Intrusions 322

CHALLIS, G. A. High-temperature Contact Metamorphism at the Red Hills Ultramafic Intrusion—Wairau Valley—New Zealand 395

CHODOS, A. A., *see* ALBEE, A. L.

COMPSTON, W., *see* PIDGEON, R. T.

DAVIS, G. L., *see* ALDRICH, L. T.

EUGSTER, H. P., and SMITH, G. I. Mineral Equilibria in the Searles Lake Evaporites, California 473

FLOYD, P. A. Metasomatic Hornfelses of the Land's End Aureole at Tater-du, Cornwall 223

JAMES, H. L., *see* ALDRICH, L. T.

KING, B. C. Petrogenesis of the Alkaline Igneous Rock Suites of the Volcanic and Intrusive Centres of Eastern Uganda 67

KUNO, H. Fractionation Trends of Basalt Magmas in Lava Flows 302

MAYNES, A. D., *see* ALBEE, A. L.

MOORBATH, S., and BELL, J. D. Strontium Isotope Abundance Studies and Rubidium–Strontium Age Determinations on Tertiary Igneous Rocks from the Isle of Skye, North-West Scotland 37

PARSONS, I. The Feldspathic Syenites of the Loch Ailsh Intrusion, Assynt, Scotland 365

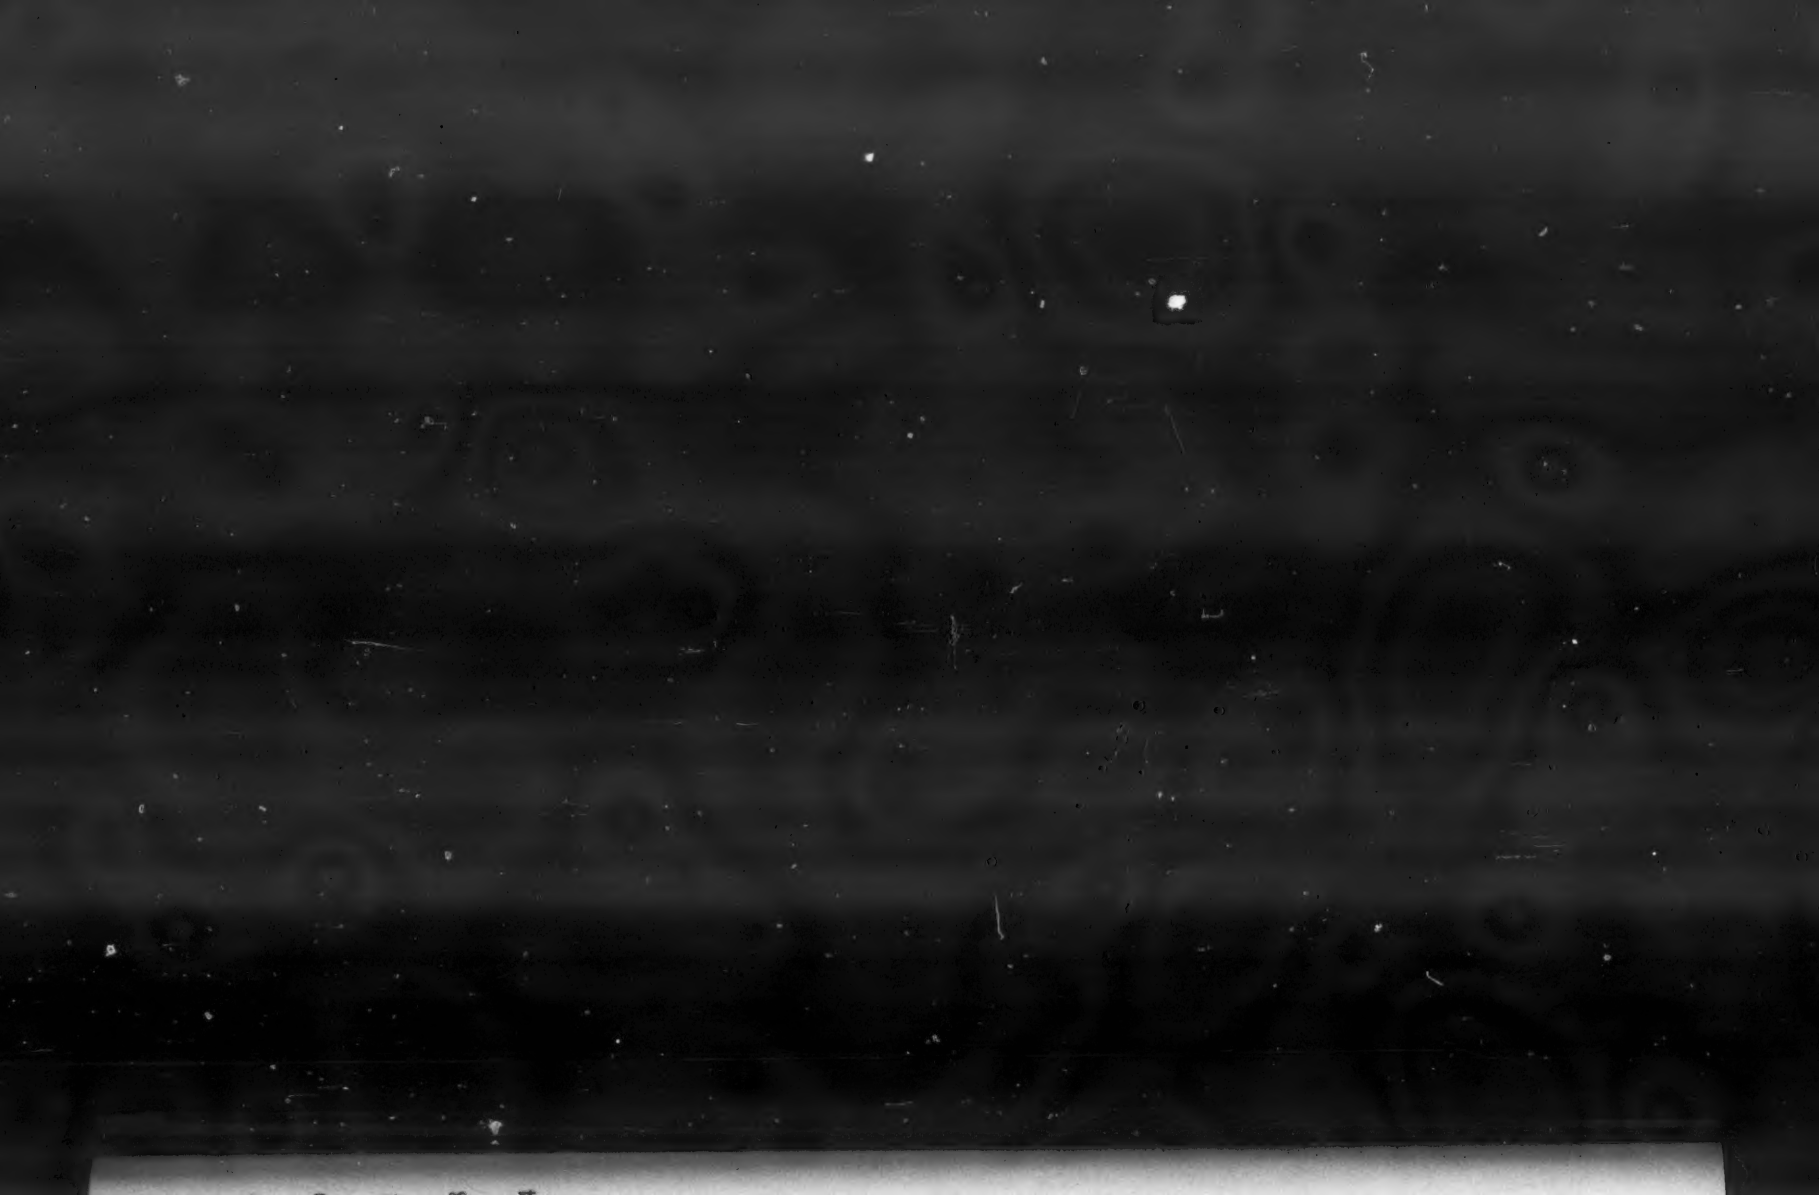
PIDGEON, R. T., and COMPSTON, W. The Age and Origin of the Cooma Granite and its Associated Metamorphic Zones, New South Wales 193

SMITH, G. I., *see* EUGSTER, H. P.

WAARD, D. DE. The Occurrence of Garnet in the Granulite-Facies Terrane of the Adirondack Highlands 165

WILKINSON, J. F. G. Some Feldspars, Nephelines and Analcimes from the Square Top Intrusion, Nundle, N.S.W. 420

WYLLIE, P. J. Melting Relationships in the System CaO–MgO–CO_2–H_2O, with Petrological Applications 101

ZARTMAN, R. E. Rubidium–Strontium Age of some Metamorphic Rocks from the Llano Uplift, Texas 28


ZEN, E-AN. Solubility Measurements in the System $CaSO_4$–NaCl–H_2O at 35°, 50°, and 70° C and one atmosphere Pressure 124
